About Mike

Mike teaches welding at The Greater Michigan Construction Academy and he is currently fighting a rare form of cancer. He has been traveling back and forth to Mayo Clinic for surgeries and is now there for 6 weeks of aggressive radiation and chemo treatments. This is not the first time he has faced this journey, but we promised he wouldn't go it alone! We appreciate any support you can provide; donating items for the raffle, helping the day of the benefit, or baking something for the bake sale. If nothing else, your prayers for his healing and strength are appreciated.
