

*Do You  
Have The Tools  
But Do Not Know  
How To use Them?*

The Tool Library, housed at The Greater Michigan Construction Academy in Midland, is dedicated to providing basic hand and power tools to people in our community who do not have the means to purchase them on their own. There is no greater sense of independence than to be self-sufficient and having the skills to take care of your own home projects. These tools are free to use after a basic tools lesson.
